FREEFALL DATA SYSTEMS

VoxAlti

speaking skydiving altimeter

VoxAlti allows you to hear your altitude and additional information announced to you while skydiving. This makes it a powerful device for training and developing general altitude awareness. Program it with your own settings on up to five presets using the free FDS Altis app and log your jumps with FDS Logbook. Easy-to-use, always-on design. Built upon the strengths of three previous generations of speaking audibles. Experience the speaking audible revolution and up your altitude awareness!

Key Features

- Free Bluetooth® iOS/Android app
- Logs your jumps for use with FDS Logbook
- *Extra-loud* speaker, our loudest ever
- Audio from a professional voice actress
- Regular spoken altitude announcements
- Unlimited additional notifications
- Can also emit standard beeps and sirens
- Aluminum case with IP67 waterproofing
- Always-on design
- Adjusts automatically to local elevation
- Custom freefall thresholds for wingsuiting
- Landing zone offsets possible
- Long battery life
- Rechargeable lithium polymer battery

Specifications

- Dimensions: 61.0 × 32.0 × 12.2 mm (2.40 × 1.26 × 0.48 in)
- Weight: 39.3 g (1.39 oz)
- Anodizing type: MIL-A-8625F Type II
- Battery: rechargeable lithium ion 3.7 V 165 mAh
- Peak output volume: 100±3 dBA @ 10 cm
- Audio format: mono MP3
- Operating temperature range: -40° to 65° C (-40° to 150° F)
- Operating altitude: -500 to 9,000 m MSL (-1,640 to 29,528 ft)
- Altitude resolution: 0.5 m (1.64 ft)
- Sample rate: 50 Hz
- Charging temperature range: 0° to 50° C (32° to 122° F)
- USB connector: USB-C
